

THE ELKO INDEPENDENT.

WEDNESDAY, JULY 28, 1899.

Our Only Authorized Agents:
T. V. JULIEN, Agent of the Pacific Union Express Company, is Agent for this paper at Winnemucca.
L. P. FISHER, 20 and 21 New Merchants' Exchange, is our only authorized agent in San Francisco, Cal.
HUDSON & MENET, 41 Park Row, is our sole agent in New York City.

IT SHOULD NOT BE SO.—Elko is a town of fair proportions, and gradually growing in permanent wealth, still we have no school-houses or churches to grace our young village. Who can expect society to be correct and good without these checks and balances? To have the opportunity of attending divine service on a pleasant Sabbath morning, of any sect or kind, is a pleasure and a profit to most men, especially to those who are not surrounded by the restraining ties of home and its cheerful influences; and to see the little ones tripping home from school brings back places and memories of years gone by, and leads the hardest and most callous to respect the hallowed influences that education throws about the young as a safeguard against the wicked and insinuating influences of the depraved. These barriers are as essential to our welfare, as a community, as are the well-built business houses that adorn our streets. Let us have at least one school-house and church, that it may not be said of us abroad: there is no morality or security in the great railroad town of Nevada. Why is it that this has been so long neglected?

BUILDING.—There are quite a number of new buildings going up in various parts of the town. Col. Monroe has a large gang of laborers at work on a new house on Idaho street, and wants more men, as he has contracted for another building as soon as this one is completed. We have a great advantage over most towns in having an abundant supply of good soft water, that can be had anywhere by sinking a few feet. The hill back of town is being built on by some layers of quiet and the picturesque, and even up there water is found at twenty-five feet. We want to see Railroad street built up with good brick buildings, for as it is now, a spark of fire on some of our windy afternoons would clean out every merchant, but two, in town. Brick, of excellent quality, can be had at very fair prices, and the promises for the future seem to justify the erection of good business houses.

GENEROUSITY REWARDED.—The sick and unfortunate who now occupy our County Hospital, sends us for publication this brief but feeling expression of their gratitude for the generosity shown them in different ways by a fair hand. Would that there were more as willing as she to lend a helping hand to relieve the pains of the unfortunate sick:

Miss EMILIE JOHNSON, for her generosity, to the County Hospital, will experience, through the gratitude of the inmates, the truth that "it is more blessed to give than to receive."
County Hospital, July 26th, 1899.

On Monday, John Dove was brought up for trying to put a head on somebody, and paid twenty-two dollars for the amusement.

Mr. O'Reilly hoisted in more tangle-foot than is good for one man to take on at any one time; got on the war-path; kicked up a row on the street, and was "pulled" for disturbing the peace. He paid twenty-two dollars, and left with a flea in his ear.

State vs. J. H. Pearson, charged with assault with deadly weapons. Trial had on Monday, and judgment held until Wednesday.

HOLMAN'S BENEFIT was all that we spoke for him—a real bumper. The house was crowded to its utmost capacity, and though the heat was almost unbearable, the audience sat on a long performance and enjoyed it hugely. It was the very best entertainment in the minstrel line that has ever been given in our town. Madam Forrestell astonished the natives by a succession of most wonderful feats. Holman was the *curd* of the evening, and gave his numerous friends their money's worth.

HOT.—We have been in the midst of a hot spell. Monday and Tuesday the thermometer stood at 96 degs, nearly all day in the coolest place in our office. Tuesday night we had a slight shower, but not enough to lay the dust, though it cooled the air. These hot days have a tendency to develop summer complaints, and we hear very many complaining of being unwell, though there is no serious illness in town.

CLOSED 'EM OUT.—Justice Mayhugh closed out the fellows who raised the muss at Lucin, as follows: Four held to answer before the Grand Jury, on charge of assault with intent to kill, and committed to jail for want of bail; three found guilty of petit larceny, and sent up for ninety days; one disturbing the peace, sent up for sixty days; six discharged for want of evidence; and one escaped from the Sheriff.

ADMIRAL FARRAGUT IN TOWN.—The old hero passed through on the Sunday morning train. He looks much like the pictures that have been published in the illustrated papers, but a little older than we thought. He goes to California on business connected with the naval department, and at the same time will look after a tract of land that he purchased at Vallejo while Commander of Mare Island Navy Yard, many years ago.

LOOK OUT FOR HIM.—Our friend Green, the polite clerk at the Cosmopolitan Hotel, had his watch stolen from his room a few mornings ago. We have heard of a gentleman having been seen around other people's rooms in various parts of town. Look out for your valuables and for the thief.

BILLY NETTLE, the nice young man at the White Pine, has a peculiar talent for the profession that he follows. He is remarkably successful in curing the prevailing disease of the period, whisky drinking, by administering a preparation of his own discovery called the "Mountaineer."

GOOD ORE.—We saw some big chunks of ore from Bull Run district, Saturday evening, that fairly made our mouth water. It was not "here a little and there a little," but rich mineral all through it. The ore was from the Porter lode. 3,800 lbs. are being taken to Dall's mill, in Washoe, to be worked.

For a pleasant ride or walk go down to the springs and enjoy a bath.

DEPUTY SHERIFF SHELTON SHOT AND PROBABLY MORTALLY WOUNDED.—Sheriff Fitch received the following dispatch from Toano last night as we were going to press: "Sheldon shot and mortally wounded. Come up or send deputies."
Sheldon went up yesterday on official business, and is reported to have been shot by Murphy who is clerking for Michels.

WINDY.—On yesterday, about noon, the wind found its breath once more, and blew as it only can blow on the Humboldt. It blew from every quarter, and then straight up and down. A copy of the "Alta," tied up with four feet of twine, went up like a shot, alongside of a junk-bottle and an old boot. The "Reno Crescent" sped out, rose a few feet, and came down wiggling, like a half-dollar, in a bucket of water. Too heavy.

"ON THEIR GIN."—The paymaster has been up the road, and the result is that the C. P. boys are having a high old blow-out. "Tantantula juice" has been plentifully imbibed, which, together with the hot weather and flies, has had a decided tendency to make the railroaders drowsy, and not over-particular as to where they retire to rest. Their motto appears to be, "we'll all get drunk together." Go in, fellows, and have a good time.

LOST.—Mr. Philip Kohlheyer, the well known Silver City butcher, lost, on Monday evening, somewhere on the Denver road within two miles of town, a pocket-book, containing papers valued at \$15,000. Mr. Kohlheyer offers a reward of \$50 for the return of his papers. They are of no value to any one else, as payment has been stopped on all that were transferable.

HORSE THEFT ARRESTED.—Deputy Sheriff Kirkpatrick, of Owyhee county, Idaho, overtook and captured a horse thief, with the stolen horse, in this town a few days ago. He is now waiting for the proper legal authority to take the prisoner back and will return in a few days.

TWO TONS OF SILVER.—The express car of Wells, Fargo & Co. that passed through here on Friday afternoon, had in it two tons of silver bullion for New York. "The mines of Nevada are giving out."

BULLION.—There passed through the office of Wells, Fargo & Co., at this place, on the 24th, 25th and 26th, twenty-one bars of bullion, valued at \$27,606.31.

SHAVING.—For a pleasant and easy shave, go to Pope and Welcome's, next door to the White Pine Restaurant.
